

GreenGru 绿色工厂申报自我评价表

Green Factory Grant — Application & Self-Evaluation Form

Structured from MIIT's official 绿色制造体系建设 申报书/评价报告 templates and 绿色工厂评价通则 (GB/T36132-2018) indicator framework. Use for national/provincial/municipal green-factory certification, which unlocks the one-off grant (奖补) rather than a loan.

1. Factory Basic Information 工厂基本信息

工厂名称 Factory name	
工厂地址 Factory address	
所属行业（统计局四位代码） Industry code (4-digit, NBS)	
主要产品 Main product(s)	
单位性质 Ownership type	☐ 内资-国有 ☐ 内资-集体 ☐ 内资-民营 ☐ 中外合资 ☐ 港澳台 ☐ 外商独资
统一社会信用代码 Unified social credit code	
法定代表人 / 电话 Legal representative / phone	
申报工作联系人 Application contact	
联系部门 Contact department	
联系电话 Phone	
电子邮箱 Email	

2. 申报级别 Certification Level Applied For

- ☐ 国家级绿色工厂 National-level green factory
- ☐ 省级绿色工厂 Provincial-level green factory
- ☐ 市级绿色工厂 Municipal-level green factory

For high-energy-consumption industries (steel, cement, flat glass, electrolytic aluminium, crude-oil processing, caustic soda, coking), the recommended enterprise's energy-intensity level should in principle meet or exceed the applicable national energy-consumption-limit standard's advanced value.

3. Basic (Veto) Requirements — Must All Be Met 基本要求（一票否决项）

- ☐ 本企业为中国境内注册、具有加工/制造/组装等实际生产过程的制造业工厂 — Registered in China, a manufacturing enterprise under GB/T4754-2017 with real production
- ☐ 已建立并实施质量管理体系（GB/T19001） — QMS in place (GB/T19001)
- ☐ 已建立并实施职业健康安全管理体系（GB/T45001/28001） — OHSMS in place
- ☐ 已建立并实施环境管理体系（GB/T24001） — EMS in place (GB/T24001)
- ☐ 已建立并实施能源管理体系（GB/T23331） — Energy management system in place
- ☐ 未使用国家或有关部门发布的淘汰或禁止的技术、工艺、装备及相关物质 — No use of phased-out/banned technology, process, equipment, or substances
- ☐ 固体废物有专门贮存场所，生产过程配备粉尘回收装置 — Dedicated solid-waste storage; dust recovery equipment in place

- ☐ 污染物排放达到国家和地方排放总量控制及排污许可管理要求 — Emissions comply with national/local total-control and discharge-permit requirements
- ☐ 按 GB17167 配备能源计量器具 — Energy metering instruments per GB17167
- ☐ 近三年内（投产不足三年自投产之日起）无重大环境污染事件 — No major environmental pollution incident in the past 3 years (or since start-up)

If ANY box above is unchecked, the factory does not qualify for green-factory certification regardless of indicator score — this is a hard gate, not a weighted factor.

4. Indicator Scoring — Self-Evaluation 指标得分自评

一级指标 Category	说明 Description	权重 Weight	自评得分 Self-score
基础设施 Infrastructure	Site/plant-level infrastructure meeting green-manufacturing standards	20%	
管理体系 Management system	QMS/EMS/OHSMS/energy-management systems in place and implemented	15%	
能源资源投入 Energy & resource input	Energy intensity, water intensity, raw-material use per unit output	15%	
产品 Product	Green-design attributes of the product itself	10%	
环境排放 Environmental emissions	Wastewater, exhaust gas, solid waste, noise compliance and reduction	10%	
绩效 Performance	Overall energy/carbon/resource performance vs. industry benchmark	30%	
合计 Total (100 分/points)	100%		

Weights and categories per GB/T36132-2018 绿色工厂评价通则 (used where no industry-specific standard has been published for this sector; check MIIT's 节能与综合利用司 industry standard list first — steel has sector-specific standards where available).

5. Evaluation Method 评价方式

- ☐ 自我评价 Self-evaluation
- ☐ 委托第三方机构评价 Third-party evaluation (attach the third-party institution's qualification proof)

若采用第三方评价，机构名称 / If third-party, institution name: _____

6. Evaluation Report Outline — To Be Attached 评价报告提纲（附件）

- ☐
- 一、概述：评价目的、范围及准则；企业基本情况、发展现状、工艺产品、生产经营状况、绿色发展重点工作及成绩 — Overview: purpose/scope/criteria; company background, process/products, green-development achievements
- ☐
- 二、评价内容：基本要求符合情况；产业结构高端化、能源消费低碳化、资源循环利用化、生产过程清洁化、产品供给绿色化、制造流程数字化等方面评价 — Evaluation content across the indicator dimensions
- ☐
- 三、评价结论：评价得分；主要创建做法、亮点及仍存在的问题 — Conclusion: score, key practices/highlights, remaining gaps

- ☐ 四、建议：对持续创建绿色工厂的下一步工作建议 — Recommendations for continued improvement
- ☐ 五、参考文件：报告编制中使用的证明材料索引 — References / supporting-material index
- ☐ 附表：现场评价证明材料清单 — Attached: on-site evaluation supporting-material checklist

7. Declaration & Signature 声明与签署

本单位评价报告真实有效、充分，真实、准确地反映了企业情况。已充分了解评价报告的严肃性，评价过程若存在弄虚作假或故意隐瞒问题，愿承担所有责任。 / This unit confirms the evaluation report is true, complete and accurate, and accepts full responsibility for any misrepresentation or concealment.

法定代表人签字 Legal rep. signature	日期 Date	企业公章 Company seal

This is GreenGru's own working template, structured from MIIT's published 绿色工厂第三方评价报告 format and multiple provincial notices (Fujian, Beijing, Shanghai, Shandong). Actual submission channels, deadlines, and the exact annex format are set by the province/municipality's annual 绿色制造名单 notice — confirm against that year's specific notice before filing.
